ILLUMINATING A POSITIVE APPROACH TO DEMENTIA CARE

NEVER ALONE ON THIS JOURNEY

Never Alone on this Journey

When a loved one experiences dementia, families need more than just care—they need understanding, compassion, and trusted support. Across the Landis Communities continuum of programs, services, and living options, nearly every staff member is trained in dementia-friendly practices so your loved one receives care that honors their dignity, their story, and their unique needs.

A Promise for EMPOWERMENT, HOPE, AND DIGNITY

With over 60 years of service, Landis Communities has supported thousands of aging adults, including more than 1,000 who call it home today. As a trusted leader in dementia and aging care, Landis has long championed compassionate approaches that honor dignity, purpose, and personal meaning. Lumina carries that vision forward by focusing on each person's story, preferences, and potential—ensuring care feels deeply personal and truly human. Landis also partners with licensing agencies and lawmakers to maintain high standards and advocate for more progressive, life-affirming models. Through Lumina, people living with dementia and those who love them find trusted guidance, expert insight, and steady support to move ahead with clarity, connection, and hope.

THE Lumina Difference

The journey that begins after a dementia diagnosis doesn't provide all the answers, and you shouldn't have to face it alone. Through Lumina, we walk beside you, seeing not just a dementia diagnosis, but the whole person you are and always will be. Together, we can transform the path of dementia, not by denying the struggle, but by filling it with compassion, meaning, and hope.

With Lumina, families can see and feel the difference:

- Caregivers who listen with patience.
- Staff who anticipate needs with kindness.
- Environments that feel safe, warm, and welcoming.

"It all makes Landis Homes a special place and explains why the national surveys rank it so highly."

- Family Member

With Lumina, your loved one is not just cared for—they are honored, respected, and embraced as part of a community.
